Total Sealing Integrity

As sealing integrity and asset management specialists, we provide information, services and support to ensure bolted joint integrity through proper gasket selection, practical bolting procedures, inspection and consultation.

Satellite Warehouse Program

A transportable warehouse for gaskets, studs and nuts and other fluid containment products used to enhance service and supply during major projects or plant turnarounds. Managed by a dedicated A.R. Thomson Group representative, our trailer program ensures the convenience of product availability during the time sensitive moments of a planned outage.

Commitment to Quality and Safety

A.R. Thomson Group is committed to safety, reliability, repeatability, traceability and to providing quality products and services to our customers through a policy of “continuous improvement.” This is demonstrated by our commitment to new product development, the integration of technologies into our manufacturing processes, the development and implementation of training programs for our employees, and our competitiveness in the global marketplace.
